DOUBLES

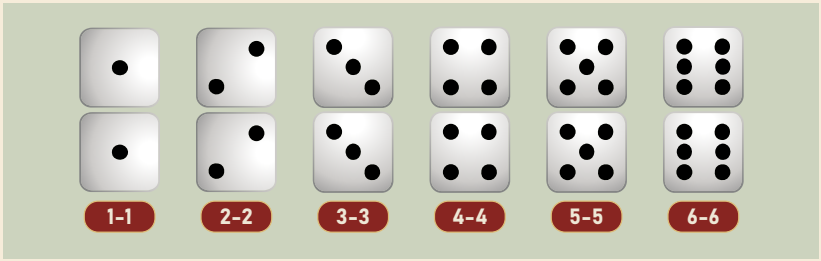
A double occurs when both white dice show the same number.

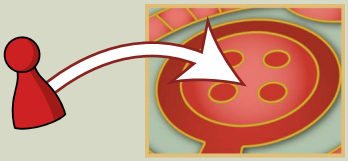


FIRST DOUBLE	→	Complete your moves.	→	**Roll again.**
SECOND DOUBLE	→	Complete your moves.	→	**Roll again.**

THIRD DOUBLE

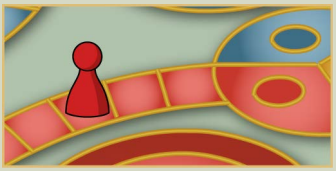
Penalty.

The last pawn you moved returns to the shelter.



Exception.

If that pawn is already in the home stretch, it stays there.



This rule applies only to the white dice.
The black die and the Parki are not affected.

BARRIERS

BARRIERS BLOCK THE PATH.

How can they be formed?

B

A Parki may also jump over the barrier if it rolls a higher number.

IMPORTANT!

If you open a barrier by rolling a double, you cannot use that same double to create another barrier.

Both pawns must end their movement on different spaces.
